Brand Philosophy

1. Brand Story

2.1. Storybrand

1. *The StoryBrands of Taiyo - Mystorybrand*
2. *StoryBrands Function - Notebook 2 - Note 3*

We also have some primal drivers like:

*Tribe belonging
Generous
Nurture
Gaining Status
Gaining Resources*

If a Brand focuses on our primal drivers they will stand out from the competition as more desirable.

Therefore it is specifically in specifying them that it acts as one of the core functions of the Brandstory.

Humans are built to survive and thrive in this complex world.

We are therefore built to burn as little calories as possible. When we unnecessarily begin to burn more calories we get a sense of discomfort. That also stands for any story.

If Taiyo's story isn't clearly defined, it will cause the potential customer to burn more calories, due to the confusion. That will cause Taiyo to lose potential customers and therefore one of the core functions for Taiyo's StoryBrand.
